OUR PROTECTIVE PRODUCTS AND COVID-19 SOLUTIONS

In these difficult and uncertain times, we understand the pressure you're facing to keep staff and individuals safe while providing essential goods and services to the public. This is why we've launched a range of solutions to protect at-risk workers across healthcare, retail, supermarkets, warehouses and other commercial environments.

Our solutions will also help to minimise disruption to your organisation and keep your employees safe and motivated while on the front-line or in the office.

This brochure is an overview of the products and solutions we have available at this time. If you can't find what you are looking for or you need a bespoke solution, please contact us to discuss your requirements. We will be happy to help.

PROTECTIVE SOLUTIONS

We have a range of personal protective solutions to minimise the risk of infection to your employees across all environments from stores and offices, to warehouses and schools. Options are available from BRC quality certified premises, meaning they meet all food safety requirements. Solutions are also produced in line with NHS recommendations, making them suitable for use in hospitals, care homes and other healthcare environments.

PROTECTIVE BARRIER FILM

This easy to apply and removable film is designed to protect surfaces and prevent contamination between users. It's ideal for use on multiple surface including laptops, keyboards, tills, screens, switches, and more. Sold in rolls with the option to perforate to the size of your surfaces.

PROTECTIVE FACE VISORS

Our face visors are made from a range of gloss clear materials such as polyester and Staufen PVC to ensure maximum hygiene and a high degree of optimal clarity, making them suitable for all environments including healthcare. The visors are lightweight and easy to use, and provide effective protection to the face.

DISPOSABLE APRONS

Our aprons are made from polythene with a head hole and two tie strings to secure. They are designed for single use to prevent contamination and can be recycled in the right waste streams. They are ideal for healthcare, care homes, labs and other environments where employees are at risk of infection.

HARD HAT VISOR

Our hard had visors are made from clear gloss materials such as polyester and Staufen PVC to protect the face and offer optimal clarity. Visor are a universal fit to most common styles of hard hat. They are lightweight and easy to assemble.

PROTECTIVE SOLUTIONS

SOCIAL DISTANCING TAPE

Our safe distancing tape is durable and bright to ensure social distancing is implemented and adhered to. It can be easily applied and removed from a variety of surfaces. Surfaces can be printed with various social distancing messages to meet your requirements.

FACE MASKS

We have a range of disposable face masks in a variety of materials to improve hygiene practices. They can be combined with the protective visors and are suitable for all environments.

INFRARED THERMOMETER

This infrared forehead thermometer can be used in conjunction with the testing booth for quick, easy and safe temperature measurement of employees. It offers a simple welfare provision by enabling you to take a precautionary step every day, in taking the temperature of your staff before they start their shift.
